Architect as a Service (AaaS)
Your Partner for Cloud Success

What is Architect as a Service (AaaS)?

Movate's Architect as a Service (AaaS) is a cloud-based model that offers organizations access to skilled cloud architects who can design, implement, and manage their cloud infrastructure. Avoid the costs of hiring and retaining in-house cloud architects with our flexible and scalable AaaS solution that allows you to engage with architects on an as-needed basis for your business requirements.

Architect as a Service Framework

Movate's Architect team consists of experts with a broad range certifications and skills to provide top-notch support for your application.

- AWS, Azure and GCP certified (professional) Solution Architects
- Simplified engagement model with usage-based pricing
- Predefined service-based offerings catalogue
- Access to Gig experts via Movate's OnDemand platform
- Unbiased reports & facts of architecture review
- Adherence to "Design to Operate", Security and compliances

Movate's Architect as a Service

| Hands-on Experiences | Domain Knowledge | Best Practices | Reusable Frameworks | Lesson Learnt | Technology & Innovation |
