

# Transforming Your Application Landscape: Migration and Modernization

## 90%

of organizations use legacy systems, and 95% of those organizations view their legacy systems as a strategic liability

- Based on a market research

Migrating and modernizing applications to and within the cloud can be complex, with challenges such as application compatibility, data migration, security, and scalability. Movate's CloudModernize solution addresses these challenges by providing a "first-time-right" outcome.

## Modernize your application with the CloudModernize Framework

A structured migration and modernization framework is essential for successful cloud migration. It involves a comprehensive discovery process that identifies the applications, data, and infrastructure components that need to be migrated.

## Movate's Migration Framework

### BUSINESS BENEFITS

- Dependency-free application discovery process
- Automated inventory collection
- Detailed application dependency mapping
- Cloud-agnostic approach
- Supports a variety of platforms
- Migration roadmap, service mapping, optimal target platform identification
- Real-time insights, end-to-end tracking

### APPLICATIONS FOR MIGRATION

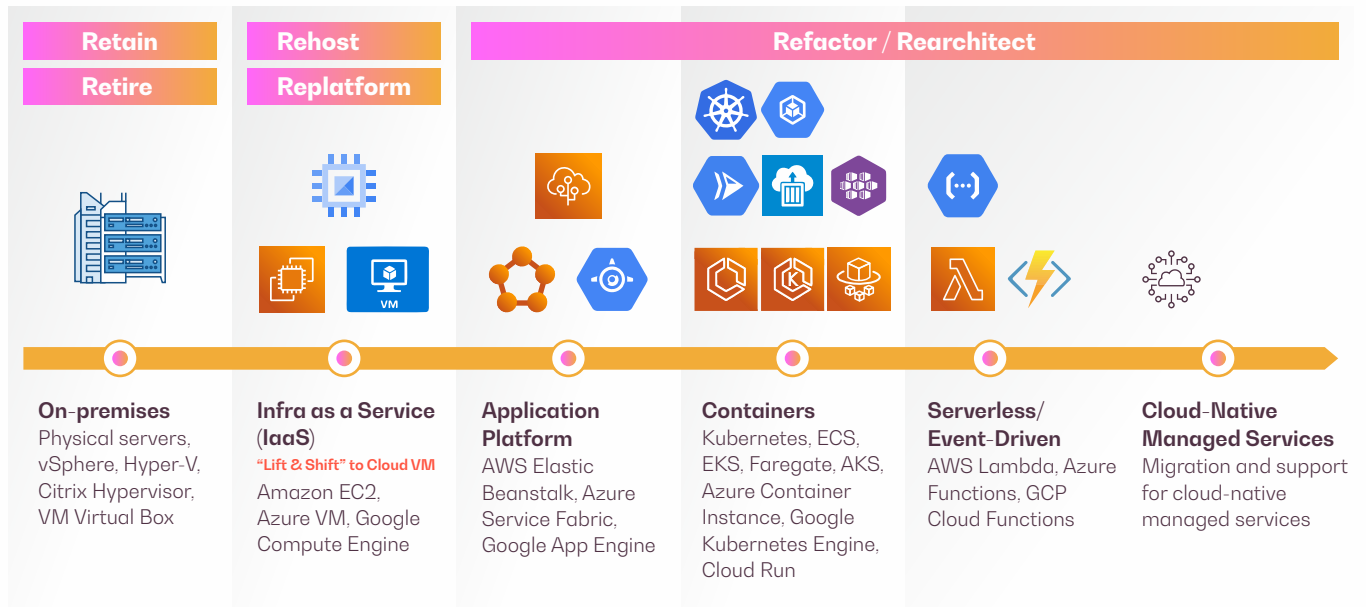

## Movate's application modernization CloudModernize framework

Modernizing applications is crucial to remain competitive and adapt to changing customer requirements. Migrating legacy applications to modern, cloud-native architectures can enhance agility, scalability, and cost-effectiveness, while enhancing user experience and unlocking new business prospects.

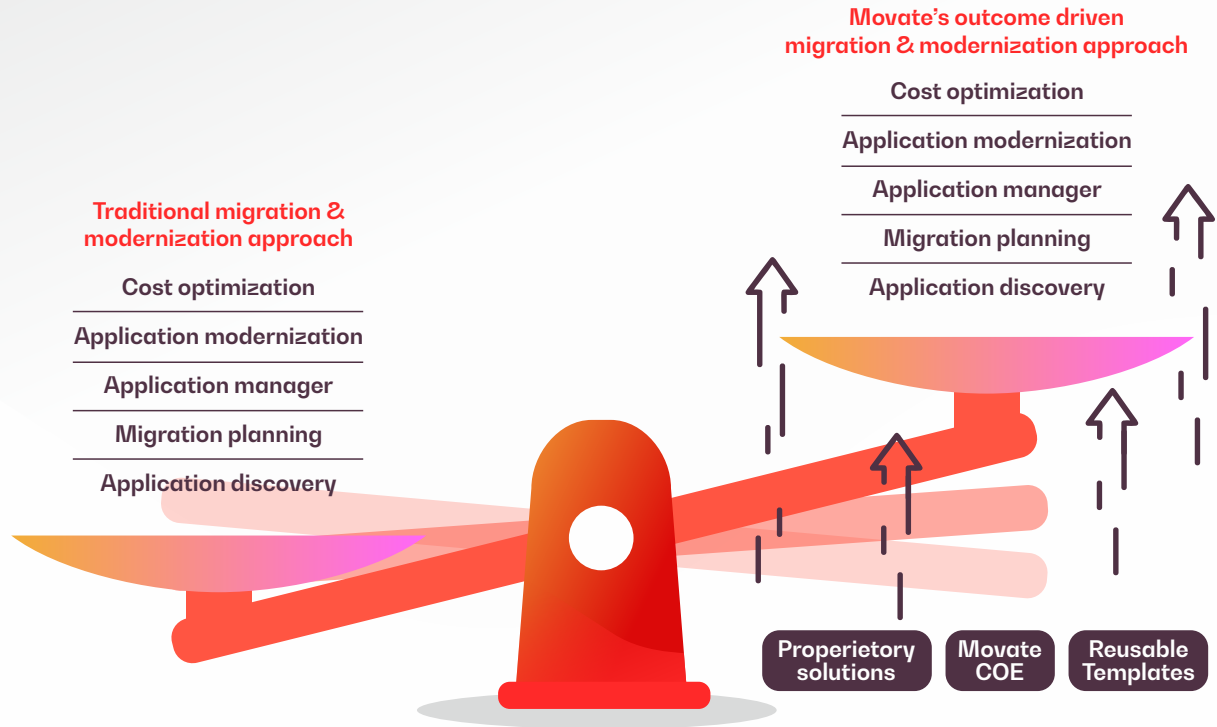

## Migration/modernization support horizon across the Six R's

Cloud Hyperscalers

# CloudModernize migration/modernization framework's benefits

## Benefits delivered

Time to market  
**45%** ↑

OpEx Reduction  
**35%** ↓

Automation  
**70%** ↑

Infra provisioned speed  
**75%** ↑

Up to  
**75%**  
faster infrastructure provisioning with Infra as Code first approach

**Cloud-agnostic approach**  
and optimal product mapping prevents vendor locking

Up to  
**45%**  
faster time-to-market with reusable templates

AI-driven, integrated monitoring reduces potential false positive alerts by  
**70%**

**Integrated Backup/DR implementation**  
for cost-effective disaster management

## Cloud service offerings

### CLOUD ADVISORY

Maximize your cloud investment with expert guidance and recommendations from Movate's Cloud Advisory team

### CLOUD MIGRATION

Seamless and secure migration of your applications from on-premises to the cloud or Hyperscaler to Hyperscaler

### CLOUD NATIVE DEVELOPMENT

Building modern, scalable, resilient cloud-native applications using agile methodologies and cloud services

### CLOUD MANAGED SERVICES

Streamline and optimize your cloud operations with expert management and support through Cloud Managed Services

### APPLICATION MODERNIZATION

Transform legacy applications to modern, cloud-native architectures for greater agility, scalability, and cost-efficiency while improving user experience and unlocking new business opportunities

## Movate's CloudModernize migration and modernization assessment

### ACTIVITIES

- Assess the current application landscape
- Application discovery, dependency mapping
- Evaluate cloud readiness, modernization, and cost-optimization opportunities
- Develop a migration plan and roadmap
- Identify and document potential risk and mitigation strategies
- Develop a data migration/integration plan
- Develop implementation roadmap, timeline
- Define security and compliance requirements

### DELIVERABLES

- Assessment Report
- Dependency mapping diagrams
- Implementation plan and Roadmap
- Service mapping, recommendations

### KEY STAKEHOLDERS FOR WORKSHOP

- Product/Business Owners
- Solution Architects, IT Director
- DBA, Network & Security specialists
- Key Business stakeholders
- Leadership team (as applicable)

### Reach out to us to schedule an assessment

Kick-start your initiative, we are here to help. We can help you measure your organization's readiness. Contact us to schedule your migration and modernization assessment.
