Business Outcomes

99%

Maintenance of SLA-based on priority & severity of the issue for a global technology giant

20%

TCO reduction for a global secured payments solutions provider

70%

Reduction in manual efforts via auto-healing for a leading networking company

Digital Infrastructure Services

Cloud Enablement Services

- Cloud advisory, assessment & migration
- Containers/Microservices migration & management
- Cloud native operations
- Cloud finops
- Cloud security
- Industry cloud blueprint
- Amazon connect solutions

Telecom & Enterprise Networking

- Optical engineering
- Network planning and optimization
- Network engineering, deployment & operations
- Fault monitoring & Management-LTE & CDMA systems. RTWP, VSWR,MIMO
- Migration services for LTE & CDMA systems

Cybersecurity Services

- Onboarding and account management
- L1, L2 and L3 support
- Premium support

Digital Workplace Services

- Intelligent service desk
- Workspace security
- Field services
- Unified collaboration as a service
- Workplace virtualization
- Application packaging
- Device as a service

Hybrid Cloud and Data center Management

- Software-defined data center/network
- Hybrid cloud solutions
- Data center consolidation, migration and operations
- Storage & backup management
- Virtualization platform management
- Database and middleware
- DR/BCP services
